Career Objective

I am a dedicated Computer Science graduate with hands-on experience in developing real-world software solutions. I enjoy solving problems and creating user-friendly applications that provide real value. Through internships and team projects, I have developed strong skills in backend development, teamwork, and effective communication. I am passionate about learning new technologies and working with others to build practical solutions. My goal is to grow as a backend developer and contribute to meaningful tech projects that make a positive impact.

Work Experience

- **Participant (Geeky Solutions Learnathon 3.0)**
Brain Station 23 PLC | Dec 2024 – Apr 2025
 - Gained practical knowledge in Software Engineering, Version Control & Workflow, Project Management, Ownership, Teamwork, Developer, and Communication.
- **Intern Backend Developer**
Alor Feri Limited | Feb 2025- Apr 2025
 - I have developed real-world projects using PHP and Laravel under the initiative *Alor Feri*.

Technical Skills

- **Proficient in:** C, C++, PHP, Laravel, Object-Oriented Programming (OOP), SQL, RESTful API, React JS, Git & GitHub.
- **Familiar with:** HTML, CSS, JavaScript, JQuery, Data Structures, and Algorithms.

Projects

- **Multi-Vendor eCommerce Platform** – The platform includes dynamic newsletters, a blog, advertisement management, subscription billing, and role-specific dashboards with multi-user panels such as admin, user, and vendor and order tracking. Deployed via CI/CD pipelines using GitHub Actions. Utilized MySQL (Eloquent ORM) and SonarCloud for code quality.
- **School Management System** – Developed a web-based School Management System using Laravel, PHP, JavaScript, and Tailwind CSS. The system includes student enrollment, class management, teacher assignments, and attendance tracking. Utilized MySQL for database management, ensuring efficient data handling and performance.
- **Portfolio Project** - A complete personal portfolio website built using Laravel (API) and React (Frontend) with Tailwind CSS and content managed via Filament Admin Panel. It allows you to showcase your personal info details dynamically through an admin dashboard.

Research

- Thesis: Bangla Image Captioning (2023)

Education

🎓 Khwaja Yunus Ali University

B.Sc. in Computer Science & Engineering, Sirajganj, Bangladesh | CGPA: (3.58/4.00)
Year: 2018-2024

Achievement

🏆 **Problem Solving:** Solved 300+ problems on various online platforms (Codeforces, Beecrowd etc.)

Languages

🗣️ English: Fluent 🗣️ **Bangla:** Native
